In August 2019, the San Francisco Police Department introduced its [Community Policing Strategic Plan](#), which outlines the department's vision, values, goals, and objectives for community policing. This strategic plan was the product of extensive collaboration with hundreds of individuals and local organizations to ensure that our community policing priorities are fully integrated into our department's practices and policies. The vision, values, goals, and objectives detailed in that plan were the foundation for our revision to DGO 1.08, Community Policing, which guides our members in how best to protect, serve and work with our community.

The department has created a series of five short videos to highlight these core values and goals. These reaffirm our department's commitment to creating safe, healthy, and vibrant communities through a guardian mindset philosophy, in which we partner and engage with community members to solve problems and enhance safety.
