- DB 15-255: Pointing of Firearms (re-classified to a use of force), issued 12/11/15

Data Collection

- SFPD has begun beta testing an upgraded demographic collection form in accordance with both State and Local legislation that predated the DOJ report.
- By creating an digital point of entry (from a previous manual system), future data sets will be automated, easier to analyze and will speed (and eventually automate) reporting requirements. (AB953/Admin 96.A)
- CA DOJ is looking at the Department’s collection practices and plan moving forward as a State wide best practice.

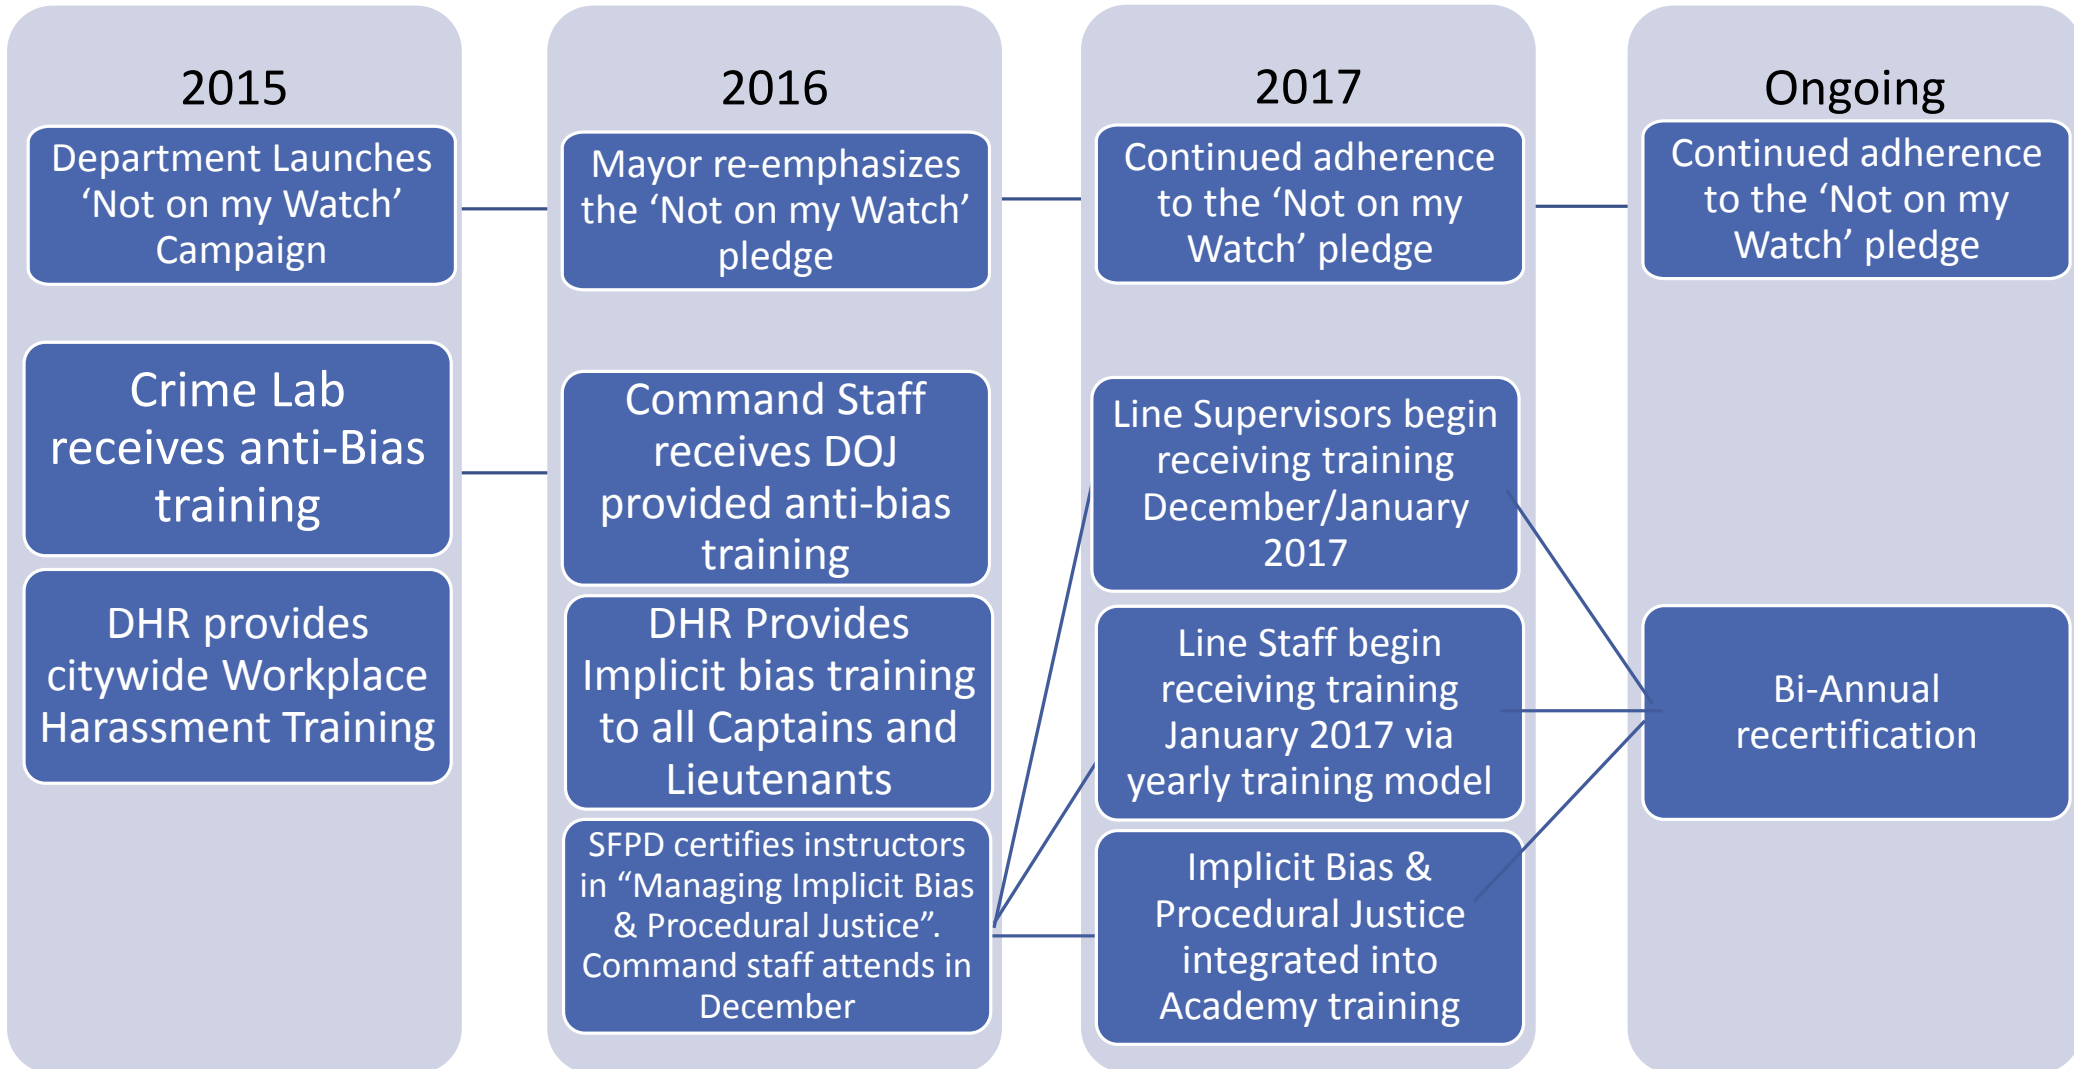

Addressing Bias Through Training

- “...there is no evidence that explicit bias is widespread [in the department]. On the contrary, the [DOJ] team observed a law enforcement agency that for the most part showed genuine compassion, caring and professionalism toward the people of San Francisco.” DOJ Report, pp.63
- The Department is exploring options with academic institutions for an external, data driven analysis of the effects of reform initiatives within the SFPD and the impact upon the communities we serve.

Addressing Bias Through Training

The US Department of Justice Report

COLLABORATIVE
REFORM INITIATIVE

An Assessment of the San
Francisco Police Department

OCTOBER 2016

COPS
Community Oriented Policing Services
U.S. Department of Justice

Areas of analysis

- Use of force policies and practices
 - Policies, practices, and training to address issues of bias in policing
 - Community policing strategies and protocols
 - Policies and practices regarding complaint and disciplinary processes
 - Recruitment, hiring, and personnel practices
-
- **A total of 94 findings and 272 associated recommendations were generated by the DOJ**

At the highest level...

- Challenges requiring a **shift in mindset and culture** bolstered by cohesive management and strong leadership:
 - “Law enforcement should adopt a guardian mindset.” (pg. 96)

- A need for **regular and consistent data capture**, aligned across departments and agencies:
 - “As relates specifically to discipline, both SFPD and OCC use different information technology systems and collection practices for complaint data, investigations and reporting ... Better data collection and management would also improve the transparency of the SFPD’s practices for its employees and the community, particularly as it relates to accountability” (pg. 152)

- More **robust and agile approach to training** (and subsequent compliance) taking into consideration the changing nature and SF’s unique environment:
 - “SFPD does not provide sufficient training, supervision support, and guidance when releasing Department Bulletins” (Finding 74)
