Captain Jack Hart's Message

Wed Nov 14, 2018

Gratitude, Gratitude, Gratitude for this month of Thanksgiving.

Take a minute right now and write a text message to express your gratitude to someone. (We'll wait.)

Congratulations! Not only did you give a dose of life-renewing DHEA/Oxytocin to the person you wrote, you gave one to yourself—you literally just extended your life and created goodness in the world. Well done!

Why is this so important?

Dr. Stephen R. Covey stated that there are four dimensions that, when properly nourished, create a "whole" person: physical, mental, emotional, and spiritual. In Habit 7 of The 7 Habits of Highly Effective People, we are reminded that we must constantly be in a state of renewal in these four dimensions. The greatest drain on us is when the emotional dimension is out of balance. We can run a marathon (physical), read a book (mental), or miss a goal (spiritual) and recover pretty quickly from the fatigue and loss, but emotional harm is quite different.

Place a check mark next to each time you experienced one of these emotions (from The HeartMath Institute's "Depletion to Renewal Grid") in the past week:

Anger	Excitement
Frustration	Courage
Anxiety	Passion
Impatience	Contentment
Withdrawal	Appreciation
Resentment	Dignity

According to the HeartMath Institute, these toxic emotions in the left column release specific stress hormones (like cortisol) which lead to reduced muscle mass, impaired mental function, diminished performance, brain cell death, impaired memory, and accelerated aging). Renewing emotions in the right-hand column facilitate energetic coordination of your sympathetic and parasympathetic systems which regenerate your system and offset drain.

In this month of Thanksgiving, let's be ambassadors of courage, nobility, love, and hope. Let's express our gratitude all month, so that we build resilience in ourselves and connection within our homes, our blocks, our neighborhood, our community, and our city.

Featured Ingleside Officer of the Month **Julia Little**

Officer Julia Little was born in Kent, Connecticut. In 2009 Julia ventured out to San Francisco in order to attend USF, where she earned her Bachelor's Degree in psychology, with a focus in child psychology. Julia's compassion for life lead her to volunteer at SF Suicide Prevention while she was attending college. Julia has a passion for helping people, especially young children.

In April of 2016 Julia entered the San Francisco Police Academy. Julia graduated the academy, completed her field training at Southern Station, and did a year on probation at Northern Station. Julia was assigned to the Ingleside District in June of this year for her permanent assignment.

In September of this year Julia's compassion for helping kids came in to play when she was assigned to be a School Resource Officer at Ingleside Station. Julia took to her assignment like a duck in water, and continues to do a great job. Please join us in congratulating Officer Julia Little, for being November's officer of the month!

Glen Park Residents: Minji, John and Jeremy

On October 22nd, 2018, a package thief with an extensive theft-related criminal history decided to visit the 2600-block of Diamond and the unit-block of Natick. Unbeknownst to the suspect, there were high-resolution cameras facing these two doorways and captured the face, clothing, and description of the suspect. Two neighbors, separated by 3 blocks (which is like a lifetime away in most neighborhoods) connected on NextDoor and began to put the pieces together; they realized that the same suspect committed both crimes. They shared this information on NextDoor with their neighbors, and the collaboration began.

Minji activated the power of her connected neighborhood's email group, described the situation, and asked for the neighborhood to check their cameras. Jeremy, around the corner from Natick, located video footage of a suspicious vehicle seen on the block at the exact time that the crime occurred. He submitted this information to Minji who added it to the NextDoor post. The resolution of the camera was so clear, that we were able to obtain the license plate number. John and Minji, at the urging of other neighbors, made sure that Captain Hart was "in the know," by emailing him the details from next-door and links to the camera footage.

Captain Hart then ran a computer check, which led the police to the suspect's address in the Bayview/Hunter's Point. Ingleside officers from the Ingleside Property Crimes Unit responded, located the suspect's vehicle depicted in the video, observed Minji's stolen Pokemon Pikachu halloween costume in plain view on the back seat of the car, and arrested the driver (and suspect from the videos). During the search, Minji's additional stolen property was later located in the car. Based upon the foregoing, Captain Hart and his team obtained a search warrant. During a search of the suspect's residence, we located John's stolen property (with the Nordstrom Rack tags still attached) and the clothes that the suspect wore during the commission of these crimes.

These members of the Glen Park neighborhood represent the best of what San Francisco has to offer: collaborative, connected, empowered, and resilient neighbors who look out for each other, care deeply about their neighborhood, and then are willing to do what they can to help each other out during times of stress.

I want to take a moment and commend Minji, John and Jeremy for being amazing neighbors. You all served your families, your neighbors, your community, and your city very well

San Francisco Police Department Receives Traffic Education and Enforcement Grant

The San Francisco Police Department has been awarded a \$237,700 grant from the California Office of Traffic Safety (OTS) for a year-long enforcement and public awareness program. The traffic safety program is intended to educate the public on safe roadway habits and deter people from violating traffic laws or practicing other unsafe behaviors that lead to injuries and fatalities.

The grant from OTS will fund various education and enforcement activities for the 2019 federal fiscal year (Oct. 1, 2018 to Sept. 30, 2019):

- DUI checkpoints and saturation patrols to take suspected alcohol/drug-impaired drivers – and those unlicensed or with a revoked/suspended license – off the road.
- Traffic safety education presentations for youth and community members on distracted, impaired and teen driving, and bicycle/pedestrian safety.
- Patrols at intersections with increased incidents of pedestrian and bike collisions.
- Speeding, red light and stop sign enforcement.

In 2016, 3,623 people were killed in crashes across the state, a 7 percent increase from 2015, according to the [National Highway Traffic Safety Administration](#). Particularly alarming is the rise in pedestrian deaths, with 867 pedestrians killed on California roadways in 2016, a nearly 33 percent increase from 2012. Along with the growing dangers of distracting technologies like phones and drug-impaired driving, this grant funding will provide opportunities to combat these dangerous and illegal behaviors.

“Almost all crashes are preventable,” OTS director Rhonda Craft said. “Education and enforcement go hand in hand helping change behaviors that cause devastating crashes.”
