Hello all,

4th of July is coming our way and I want you all to be prepared. 4th of July is a time of celebration but please do so safely.

We have included in this newsletter some information on Fireworks . I cannot over-emphasize the importance of safety around the use of fireworks and I cannot encourage you enough to just go see the public displays and avail of that experience rather than creating your own. Each year there are so many horrific incidents of people loosing body parts and lives because of the misuse of fireworks. My advice is don't use them and avoid being a victim.

On another but related note some people may think shooting off a shotgun is an appropriate way to celebrate 4<sup>th</sup> of July, it is not and it is not only illegal but also dangerous. What goes up must come down and on occasion those rounds shot off end up striking some innocent person and causing serious injury or death.

Please note that there will be no vehicle access to Twin Peaks View Point from 4pm on July 4<sup>th</sup> until after the fireworks.

Please all be safe, keep yourselves, your family and pets safe and most importantly celebrate Independence Day safely and smartly.

Take good care,  
Captain Una Bailey

**4TH OF JULY**

Every Fourth of July, more fires are reported nationwide than on any other day of the year, with 50% of those fires being fireworks-related. Homes, wooded & grassy areas, and even automobiles have become engulfed in flames because of fireworks. On the Fourth of July over the past three years, the San Francisco Fire Department has responded to 53 fireworks-related grass fires, in addition to multiple structure fires that were also caused by fireworks. Most commonly the fires are caused by bottle rocket-type fireworks, where the rockets can land in dry vegetation, on rooftops, or wedge within structures, and still retain enough heat to cause a fire.

In recent years, fireworks have been one of the leading causes of serious injuries that require emergency treatment in a hospital ER. Fireworks can cause severe burns, fractures or scars, and can even result in death or life-long disfigurement. The thousands of serious injuries that occur each year typically involve damage to the eyes, head or hands, with the risk of fireworks-related injuries highest for children 5 - 14. Even though novelty fireworks, such as fountains and sparklers, are generally considered to be "safe", they can reach temperatures of more than 1,000° F, and account for 36% of all emergency room fireworks-related injuries.

There ARE safer alternatives to using fireworks on the Fourth of July. Public fireworks displays can be the safest and smartest, and even most economical, fireworks alternative. The San Francisco Bay Area hosts several free public fireworks displays every Fourth of July.

For more information about fireworks facts, safety tips, and federal & state fireworks laws, please explore the links below.

The San Francisco Fire Department wishes you a Safe and Happy Fourth!

## 4th of July

## 4th of July Safety Tips

Severe burns, amputations, blindness, and, in some cases, deaths are often the result of 4th of July celebrations.

CAL FIRE's Office of the State Fire Marshal has the following tips:

- Local ordinances should be verified before purchasing and/or using fireworks.
- Always read directions.
- Always have an adult present.
- Use fireworks outdoors only.
- Never use near dry grass or other flammable materials.
- Light one at a time.
- Keep a safe distance.
- Never point or throw fireworks at another person.
- Never experiment with fireworks.
- Have a bucket of water and a hose handy.
- Never attempt to re-light or "fix" fireworks.
- Do not wear loose fitting clothing.
- Never carry fireworks in your pockets.
- Fireworks are not toys.
- Use only State Fire Marshal approved fireworks.

Parents are liable for any damage or injuries caused by their children using fireworks.

**OFFICERS OF THE MONTH**

Captain Bailey has named Aileen Paglinawan, Deanna Delaney Refugio Sainez and Manolito Tolibas, Officers of the Month for the month of July.

We are very fortunate at Park Station to have four dedicated Police Service Aides whose work is tremendously valuable to our station. These outstanding individuals do a multitude of jobs at Park Station such as; filing police reports, statistical analysis, communicating with the public, answering calls and questions. They are an integral part of our station that help to make all of our jobs easier. We thank them for all they do!

**SOME OF PARK STATION'S ARRESTS FOR THE WEEK****Warrant Arrest, Enroute to Outside Jurisdiction, Driving License Suspended Area of Clayton and Carmel Street, 06/25/19 14:45 Hours**

Officers on patrol in the area of Clayton and Carmel Street, observed a vehicle make an unsafe lane change, Officers conducted a traffic stop and contacted the driver. The driver told the officers that his driver's license was suspended, a computer check also confirmed that his driver's license was suspended and that the driver had a \$10,000 warrant out of South San Francisco for drugs. The driver was arrested and transported to County Jail and his vehicle was towed.

**Warrant Arrest, Enroute to Outside Jurisdiction, Alcohol, Consuming In Public View/ Area of 2000 Market St. -06/26/19 18:30 Hours**

While on patrol officers were in the area of 2000 Market when a male subject was observed standing near the light rail tracks. It appeared that the male subject was yelling at imaginary people. Male subject was approached by the officers for a well-being check. During the contact officers observed the male subject drinking beer, in violation of 21 MPC. Due to the violation officers detained the male subject and performed a computer query which revealed that he had an active warrant for his arrest out of San Mateo County bail set at \$5,000.00; violation 485 PC, 466(1)(c) CVC). Male subject was placed under arrest and transported to County Jail.

**Warrant Arrest, Enroute to Outside Jurisdiction, Civil Sidewalks, Warning / Area of Haight Street – 06/27/19 – 1832 Hours**

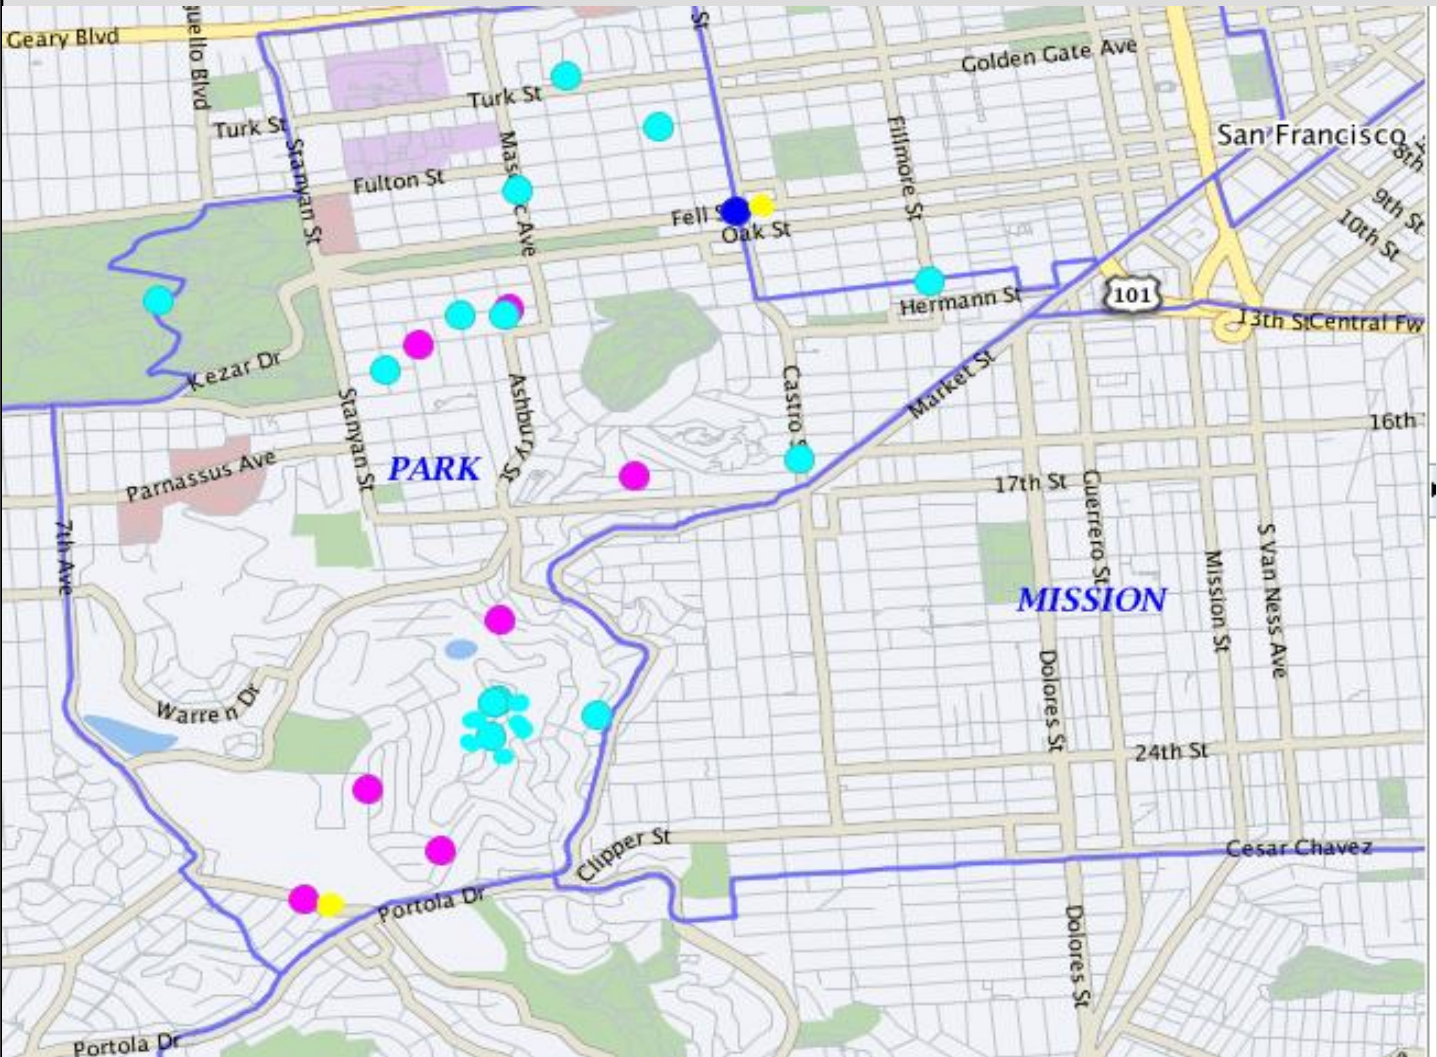

On June 27<sup>th</sup>, 2019 officers in full police uniform was walking the foot beat on the Haight Street corridor, when he observed a man sitting on the sidewalk in violation of the San Francisco Sit/Lie Law. They identified the subject, and conducted a computer check. The check revealed that the subject had three warrants out of San Bernardino County, for liquor violations, total bail amount \$70,000. The warrants were confirmed and the subject was transported to Park Police Station and booked. A Crime Date Warehouse check showed that the subject had not been admonished for violating the San Francisco Sit/Lie Law. The subject later acknowledged and signed the Sit/Lie warning form.

**Municipal Code Violation, Local SF Warrant, Area of Fell and Baker 06/30/19 - 08:22 Hours**

Officers responded to a call of a trespasser in a parking lot, on arrival the officers observed a subject standing next to a closed business that had a posted 25(a)MPC. (No Trespassing Sign) A computer check revealed that the subject had a local warrant for \$20,000 for vandalism. The subject was arrested and transported to County Jail.

# DISTRACTED DRIVING

## Distracted Driving

Distracted driving is anything that takes your eyes or mind off the road. In the smartphone age, distracted driving is the most dangerous when drivers are using their cell phone behind the wheel.

Whether it is talking, emailing, texting, plugging in directions, using an app or scrolling through social media feeds, using a cell phone is not only dangerous, but also illegal.

In 2017, 3,166 people were killed in distracted driving related crashes across the country, or nearly 10 percent of all traffic deaths.

Using a phone to dial, talk or text triples the risk of a driver getting into a crash. Texting is the most alarming distraction. Sending or reading a text takes your eyes off the road for an average of 5 seconds. At 55 mph, that's like driving the length of a football field with your eyes closed.

Other serious driver distractions such as eating, grooming, reaching for objects on the floor, changing clothes or talking with passengers are just as dangerous. The safest thing drivers can do is put down the phone, focus on the road and just drive.

### Distracted Driving Prevention

- ✓ Never Text and Drive
- ✓ Silence your phone before you drive
- ✓ Pull over to safe parking spot to make a call
- ✓ Don't text or call someone you know is driving

## Cell Phone Law

-  Holding a phone while driving is illegal. Any electronic device must be used in a hands-free manner, such as speaker or voice commands. The law applies when at a stop sign or signal.
-  To use a phone while driving, it must be mounted on the dashboard, windshield (seven-inch square in lower right corner or five-inch square in lower left corner), or center console.
-  When the phone is mounted, drivers can swipe or tap the screen once to activate or deactivate a feature. It is illegal to swipe multiple times, enter information or text.
-  A first offense ticket is \$162, with additional offenses costing even more.
-  You may use your phone while holding it for true emergencies, like calling 911.

For additional driver safety tips and resources, visit [gosafelyca.org](http://gosafelyca.org).

Be part of the solution by resisting the urge to talk or text while driving and "Go Safely, California."

## Distracted Driving

It's easy to feel like driving isn't enough when there's so much more to do. It's normal to feel the urge to grab the phone. But we must stay focused on the road. Not only is holding your phone while driving illegal in the State of California, distracted driving is now the number one cause of roadway crashes. Join us in being part of the solution. Grab the wheel with both hands, enjoy the drive and focus on each other. Here are some ways you can prevent driving distracted:

- > Silence your phone before you get behind the wheel and keep it mounted in a legally approved location.
- > Never text and drive or use apps or social media while driving.
- > Do not eat, drink or program your GPS/MP3 player or other devices while driving.
- > If a phone call is necessary or you need to reroute your map, pull over to use those devices.
- > If something falls to the floor, pull over to a safe parking spot before trying to reach it.

[sfsafe.org/safe-bikes](https://sfsafe.org/safe-bikes)

SAFE BIKES and the SFPD recommend the Sheldon Brown Locking Method.

No locking method is 100% foolproof, but this method is highly effective.

### GUIDE FOR LOCKING YOUR BIKE:

- Use the smallest U-lock that works for your bike to minimize the amount of space available for a thief to insert a jack or levers.
- Use a hardened steel U-Lock to secure back wheel inside the rear triangle of the bicycle frame.
- Check to make sure U-lock is secured to an immovable metal object.
- Secure front wheel with cable or second U-lock. Loop cable around the down tube of the bicycle or secure second U-lock to front wheel and down tube.
- Replace quick release skewers and nutted wheels with keyed locking skewers and nuts to ensure wheels and saddles are locked to the bike frame at all times.
- Check with local bike shop for proper installation of locking skewers and advice.

## SAFE BIKE REGISTRY

## YOU JUST BOUGHT A NEW BICYCLE— NOW WHAT?

### FOLLOW THESE STEPS:

- Register** and upload receipt and photos of your bicycle at [sfsafe.org/safe-bikes](https://sfsafe.org/safe-bikes).
- Buy a hardened steel U-lock and a secondary lock** such as a chain or cable (See locking tools list).
- Replace quick release skewers and nutted wheels with uniquely keyed locking skewers and nuts**, which keep wheels and saddles locked to the bike frame at all times.
- Lock** your bicycle in your garage the same way you would on the street.
- Take an urban bicycling workshop** with the San Francisco Bicycle Coalition to learn safe riding practices. Go to [sfbike.org](https://sfbike.org) for more information.
- Speak with your local bicycle shop** for more help and advice.

### TOOLS TO LOCK YOUR BICYCLE

There are many different types of locks for bicycles and many incorrect ways of using them. No locking method is 100% effective.

**For best security use a hardened steel U-lock, chain and locking skewers.**

### PREVENTING BICYCLE THEFT IN GARAGES

Garages and multi-unit apartment buildings with common garage are one of the most vulnerable places for bicycles. Thieves are waiting for the perfect opportunity.

**Secure your bicycle in the garage the same way you would on the street!**

- Secure to an immovable object or an anchor system.
- Never lock your bike near a window or door.
- Always watch your garage door and make sure it closes completely so unwanted visitors do not enter.
- Contact SAFE at 415-553-1984 or [info@sfsafe.org](mailto:info@sfsafe.org) for a residential security survey.

**Overview**

**Note:** The following information is specific to commercial and retail establishments; however, can be applied to any location utilizing video surveillance.

Basic set up and maintenance problems can reduce the effectiveness of many systems.

- Resolution – is it good enough for facial recognition.
- Camera position – are they positioned for clear view of suspect.
- Lighting – is it adequate to capture clear images both day and night.
- Image detail – is the recorder set up for best image detail.
- Maintenance – are you maintaining your system properly so it can do its job when needed?

**Set Up and Maintenance**

- **Backlighting** – when sun is bright at doorway, images in front appear darker or even black. Use another light source inside to counteract back light.
- **Low Frame Rate** – saves on drive space and gives better image quality, but you may not get an image at all (now you see him; now you don't).
- **Obstructions** – displays and other objects blocking view **should be eliminated.**
- **Focus Problems** – must check system regularly to prevent.

Minimum camera resolution should be **480 horizontal lines.**

Good cameras have **faster lenses** (allows more lighting), larger maximum **aperture** opening (lets more light into the focal point of the camera) and controls image brightness (allows brighter images in dim lighting) – the more lighting, the more depth of field (greater depth of field; the more of the scene is in focus).

**Focal Length** – some cameras zoom in and out while others have a fixed focal length. The type of cameras used depends on what your needs are.

**Transaction Areas** – anything at a transaction point (cash register, toll booth, etc.), the subject's head should fill at least 15% of the total image in the frame, giving the detail you need.

**Lines of Sight** – lines of sight are always critical, make sure there are no obstructions.

**Site Plan** – the right site plan is crucial (retail store blueprint or **diagram**). Key camera spots are at transaction points (cash registers and entry/exit points) – the more cameras, the better.

You want good camera **overlap** (you want multiple chances to capture good images). Extra coverage is also needed for aisles, restrooms and other key points.

**Camera Height** – placement is very important, make sure it is as close to eye-level as possible. Otherwise, you might lose out to a baseball cap.

With a good site plan you can make sure you don't have any blind spots (you can toy around with camera positions, and do a test recording to see that you are getting what you want).

**Interior Lighting** – interior lighting can balance bright light from one direction (back lighting) by adding another light source from a different location (add a bank of lights).

Example: Artificial lighting (**inside store**) for cameras may be good in the morning, but by noon, the sun (through a doorway or window) can blow the entire frame out (add lighting to fill in for afternoon sunlight). Adding more light from a different direction balances lighting, giving better camera clarity (if sunlight is shining through large windows you can tent windows or add screens.

**Exterior Lighting** – if lights are on timers, you must adjust appropriate to seasonal changes (Fall/Winter: gets dark earlier. Spring/Summer: gets dark later).

PARK SMART CAMPAIGN

# Park Smart!

## THE KEYS TO PARKED CAR SAFETY ARE IN YOUR HANDS!

If you love it, don't leave it.

### DON'T TEMPT A CAR THIEF!

Car thieves only need seconds to break into your car. So Park Smart, and especially keep your trunk clear.

Take everything with you.

# Park Smart!

## Safe Habits to Adopt:

**Turn off the ignition**  
Never leave your car running unattended

**Keep your vehicle & tires in good condition**  
to prevent breakdowns—stranding you in a dark or unfamiliar place

**Lock your doors**  
when you get in your car

**See something, say something**  
If you see a motorist in distress, call 9-1-1 versus stopping to help

**Clear your trunk**  
and take your valuables with you every time you leave your car

**If you are being followed,**  
drive to the nearest police or fire station—a populated area is a good default

# DON'T BE A VICTIM OF A BURGLARY!

## Burglary Awareness & Prevention Tips for Construction Sites

### Securing & Preventing

1. Secure all equipment and vehicles at all times.
2. Take effort to reduce the visibility of tools and equipment secured in vehicles or on job sites.
3. Make use of adequate lighting in conjunction with open chain-link fencing on the perimeter to allow for high visibility to the job site.
4. Strongly consider the use of security systems such as alarms and video surveillance. Ensure signage for such is clearly visible.

SFPD Park Station  
1899 Waller Street  
San Francisco, CA 94117  
(415) 242-5000

### Precautionary Measures

1. Photograph all tools. Ensure photographs clearly show the associated serial number and/or distinctive markings.
2. Ensure job site keys are marked "Do Not Duplicate" and are controlled at all times.
3. Attempt to park employee vehicles within visual range of the job site.

### Should a Burglary Occur

Immediately contact 911. Be prepared to provide the following information:

- a) Time of incident.
- b) Video (if available).
- c) Items taken (include make, model, description, location taken from, value, photos and serial numbers).
- d) Insurance information.
- e) Owner's information.

Whether you live in a single family home, condo, or a large apartment complex in San Francisco, there are a number of ways you can keep your residence safe and secure. Working together as a community with your neighbors and building management can significantly improve your residential safety.

7 Residential Safety Tips

- 1 **Garage:** When entering or leaving the garage, watch to ensure door shuts completely. Lock stored bikes to a sturdy rack.
- 2 **Car:** Always lock your vehicle when parked in your garage and remove all valuables. Never leave garage door opener in your vehicle when parked outside your home.
- 3 **Spare Key:** Never hide spare keys. If you need to have a spare key available, leave it with a trusted neighbor.

- 4 **Door Buzzer:** When a visitor rings your bell, confirm who it is by intercom before you grant them access. Similarly, never let strangers follow you through the front door.
- 5 **Security Cameras & Alarm Systems:** Cost effective tools for preventing crime and identifying criminals.
- 6 **Light Timers:** Installing timers on the exterior of your residence is an effective and energy efficient way to deter criminal activity.
- 7 **Doors/Windows:** Always keep doors and windows locked.

Door and Window Safety

Doors:

- Should be made of solid wood or metal
- Have a single cylinder deadbolt lock and a 1-inch bolt
- Have a front door viewer or peep hole with a 180-degree range
- Clearly display unit number

Windows:

- Replace if glass is cracked and replace all damaged or missing locks
- Ground level windows should be burglary resistant: consider purchasing windows with reinforcement wire, laminate, or tempered glass
- Polycarbonate plastic or metal grates can be installed over existing ground level windows
- Windows above ground level are not considered secure: if used for ventilation, lock in position and keep open no more than 3 inches

Keep property in good repair. Maintain visibility to your neighbors for increased safety.

**DEFINITION OF SUSPICIOUS ACTIVITY**

Suspicious activity is any observed behavior that could indicate a crime-related incident has been committed, or about to be committed. Unusual items or situations: A vehicle is parked in an odd location, a package/luggage is unattended, a window/door is open that is usually closed, or other out-of-the-ordinary situations occur.

Examples of Suspicious Activity:

- An individual peering into vehicles, to try, and locate any valuables left unattended.
- An individual trying door handles to vehicles, and/or residences to gain access to the vehicle and/ or residence.
- An individual checking front doors of residences to locate any unattended packages, or individuals following delivery trucks to see where the truck is dropping off packages.

**CRIME DEFINITIONS***Definitions*

**Robbery** – Robbery is the taking of property from another by using force or by using fear.

**Assault** – An assault is an unlawful attempt, coupled with the present ability, to commit a violent injury on another person.

**Battery - (Misdemeanor battery)** is any willful and unlawful touching of another.

(**Felony battery**) is the use of force or violence upon the person of another that causes serious bodily injury.

\***Assault** is when a person swings their arm and **battery** is when that arm makes contact with another person.

**Aggravated Assault** – Assault upon another person with a deadly weapon or instrument other than a firearm or by any means of force likely to produce great bodily injury.

**Burglary** – The intent upon entry into a property to commit grand theft, petty theft, or any felony.

**Grand Theft** – Grand theft is theft committed when the value of the money, labor, or property taken exceeds \$950.

**Petty Theft** – Theft where the value of the property taken is less than \$950.

**PARK STATION'S VISION & VALUES****Captain Una Bailey**

I absolutely love police work and I love all that we as SFPD can do to help victims, solve and prevent crimes, and I am a firm believer in the power of the community. We, as a department, are only as successful as our partnerships with the community. I learned very early in my career how important community involvement is both in solving and preventing crimes and also in the creation of safe desirable neighborhoods. I look forward to building and maintaining community involvement and relationships over the coming years. I know that when we work together, we will create a district that will be safe and sound for all.

## WHO AND WHEN TO CALL?

**3-1-1:** Please contact 3-1-1 when the issue is a not an emergency, yet requires City services or, if you simply have questions regarding City services. Non-emergency situations include the following examples: damage to public property, public trees that requires pruning, defective streets or sidewalks, homeless-related issues. 3-1-1 was developed to help the community inform the appropriate City agency regarding a service request.

**SF 3-1-1 APP** is available to use on your mobile device. Download the APP and its easy to use for many Non-emergency.

**Non- Emergency San Francisco Dispatch Line:** Please call the non- emergency dispatch line (**415-553-0123**) when the scenario does not need immediate response from the San Francisco Police Department. For example, if there is a loud party, a group of loud juveniles loitering in front of your residence, noise complaints, doubled parked vehicles, suspicious activities, or a homeless/nuisance related issue. **The non-emergency line is for situations that require the police, but do not require an immediate police response.**

**9-1-1, please call 9-1-1 immediately if there is a police, fire, medical, or any other emergency.** The purpose of San Francisco's 9-1-1 Emergency Telephone System is to provide the community an immediate response of police, fire, or medical personnel for emergency occurrences. To accomplish this, it is imperative that the calls received on the 9-1-1 line be restricted to those situations that require immediate dispatching of police, paramedic, or fire department personnel. For example, crimes or fires that are in-progress, or medical emergencies.

The San Francisco Police Department district station telephone numbers and emails are not monitored. Questions will be answered in the order we receive them. Station emails are not for making police reports nor for reporting a crime. If you need to make a police report, you can call 415-553-0123 or go to your district police station. **If you have an emergency, please call 9-1-1.**
