Hello all,

Today I am going to talk to you about the posting of "No Trespassing signs" on the outside of your property. You may notice as you walk down Haight Street yellow "No Trespassing" signs posted in various store fronts and also in many neighborhood residents doorways. These "No Trespassing" signs which are signed by the property owner and posted in conspicuous places on their buildings and in windows request enforcement of Municipal Police Code section 25(a) MPC "No Trespassing" on their property.

When the owner of a property posts the "No trespassing" sign it serves as a notice to all that nobody is allowed to remain on the property. It allows law enforcement to advise or cite any individual for trespassing who is seen to be in violation of the sign. It does not require the owner to call the police to enforce the sign as their signature on the conspicuously posted sign is sufficient to enforce the ordinance in their absence. The sign can be enforced 24hrs 7 days /week if so noted on the sign or the owner can decide that the sign only be enforced at particular times of the day as many business owners do.

The first violation of the Section 25(a) MPC is an infraction. A second violation within 24hrs is a misdemeanor 26MPC. i.e. an individual who was cited once is again at the same location within 24 hours in violation of the posted sign.

Please review a copy of the sign on the next page. The signs are yellow in color and are effective for 12 months at a time. When the sign expires post another sign with a new date.

These signs are available at all Police Stations. You can print the sign in this newsletter, sign it and post it and email a copy of the signed copy to Park Station (sfpdparkstation@sfgov.org).

Be safe

Captain Una Bailey

NO TRESPASSING

REQUEST FOR ENFORCEMENT OF MUNICIPAL POLICE CODE SECTION 25

San Francisco Municipal Police Code Section 25 provides that no person shall willfully remain upon any private property or business premises after being notified to leave by the owner, lessee, or other person in charge. Notice may be oral or in the form of a written notice posted in a conspicuous place.

A violation of Section 25 is an infraction. A second violation within 24 hours (Section 26) is a misdemeanor.

To the San Francisco Police Department:

I hereby request that the San Francisco Police Department enforce the above Municipal Police Code Sections on my behalf and in my absence. I have given no person(s) permission to sleep, lie, or in any way remain within my doorway located at _____ (private property).

I further state that I will notify the San Francisco Police Department in writing within 24 hours if I do give a person(s) permission to sleep, lie, or in any way remain within said doorway, providing the Police Department with the person(s) name.

I agree to post a copy of this notice in a location where it will be visible to all persons within the said area. I understand that this letter of request expires twelve months after the below – signed date.

OFFICERS OF THE MONTH

Captain Bailey has named Edwin Lee and Willion Wong Officers of the Month for the month of August.

Congratulations to Officer Edwin Lee and Officer Willion Wong. These two veteran officers have been assigned to the midnight watch at Park Station for over 10 years. Officer Lee and Officer Wong have a solid partnership and together have helped many people over the years while working in the Park District. They are very proactive while patrolling and make excellent arrests during their midnight shift. With these two veteran Officers on patrol the Park District is a safer place to work, live and visit.

SOME OF PARK STATION'S ARRESTS FOR THE WEEK**Warrant Arrest, Local SF Warrant, Traffic Violation Arrest / Area of 14th St. – 9/16/2019**

Officers observed a black sedan make a left turn in violation of a no left turn sign. The officers conducted a traffic stop and the vehicle pulled into the parking lot of a gas station. The officers made contact with the driver who stated that she had forgotten her driver's license, but remembered her driver's license number. The officers conducted a records check. The officers discovered the driver had an outstanding warrant for her arrest, the officer confirmed the warrant. The driver stated that she would have a licensed driver pick up the vehicle. The driver was arrested, transported to county jail and booked for her warrant and failure to obey a posted sign.

Theft, Shoplifting / Area of Stanyan St. - 9/16/2019

Officers responded to a grocery store regarding a possible shoplifting. Officers spoke with the security guard who stated the subject took multiple items and placed them in her bag and only paid for some items. The security guard detained the individual in the parking lot of the grocery store and escorted the subject to the security office. The security guard signed a Citizen's Arrest Form, the subject was arrested and cited for shoplifting.

Terrorist Threats / Area of Laguna Honda Blvd. – 9/18/2019

Officers responded to a call regarding a subject mentally altered, who was observed swinging a broom, and threatening people. Upon arrival officers de-escalated the incident and detained the subject who put the broom on the ground when ordered to do so. Officers spoke with the citizen who called the police and that person identified the subject. The citizen signed a Citizen's Arrest Form and the officers placed the subject under arrest for 422PC, criminal threats. The subject was transported to county jail.

Park Code Violation, Methamphetamine Offense / Area of Fell St. 9/19/19

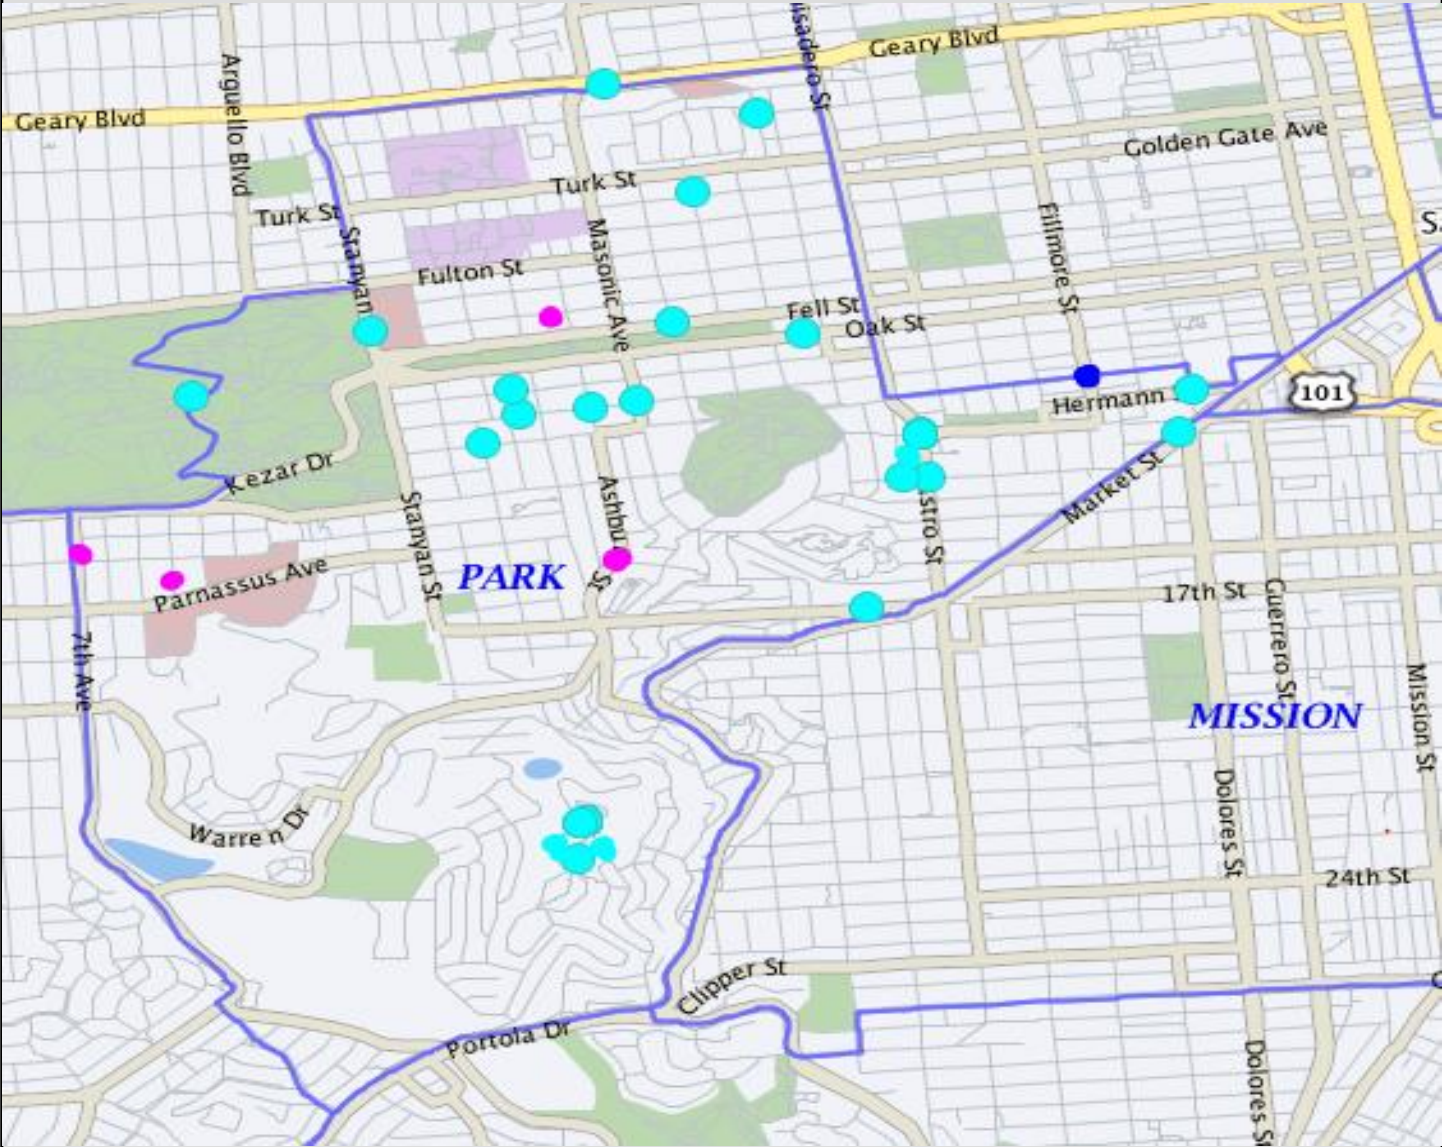

Officers were on patrol in the area of Fell and Baker Street when they observed a male sitting in a tree in violation Park Code 4.01(f). Officers ordered the subject out of the tree the subject complied and climbed down. A record check revealed that the subject had an outstanding warrant out of San Mateo County. The subject was arrested and during an arrest search the officers located methamphetamine in the subject's right front pants pocket. The subject was transported to Park Station. At Park Station San Mateo County was not able to confirm the warrant. The subject complained of a head injury that he received earlier in the day and requested an ambulance. The ambulance transported the subject to San Francisco General Hospital (SFGH). At SFGH the subject was cited for the above violations and released.

Malicious Mischief, Vandalism to Vehicle / Area of McAllister St. 9/19/19

On the above date Officers were flagged down by a citizen who reported a subject threw a rock at his vehicle window. The citizen pointed out the subject to the officers. The Officers detained the subject without incident. The citizen explained to the officers that he was inside his house and heard a "Big Bang". The citizen looked out of his window and observed the subject walking away from his truck parked in the driveway. The citizen told the officer the subject threw a rock at the driver's side window. The window did not break, but the window was scratched. The citizen signed a Citizen's Arrest Form for vandalism. The Officer accepted the arrest and while issuing the citation to the subject he stated, "Yah, cause I threw a rock at his window". The subject was cited and released.

DISTRACTED DRIVING

Distracted Driving

Distracted driving is anything that takes your eyes or mind off the road. In the smartphone age, distracted driving is the most dangerous when drivers are using their cell phone behind the wheel.

Whether it is talking, emailing, texting, plugging in directions, using an app or scrolling through social media feeds, using a cell phone is not only dangerous, but also illegal.

In 2017, 3,166 people were killed in distracted driving related crashes across the country, or nearly 10 percent of all traffic deaths.

Using a phone to dial, talk or text triples the risk of a driver getting into a crash. Texting is the most alarming distraction. Sending or reading a text takes your eyes off the road for an average of 5 seconds. At 55 mph, that's like driving the length of a football field with your eyes closed.

Other serious driver distractions such as eating, grooming, reaching for objects on the floor, changing clothes or talking with passengers are just as dangerous. The safest thing drivers can do is put down the phone, focus on the road and just drive.

Distracted Driving Prevention

- ✓ Never Text and Drive
- ✓ Silence your phone before you drive
- ✓ Pull over to safe parking spot to make a call
- ✓ Don't text or call someone you know is driving

Cell Phone Law

-  Holding a phone while driving is illegal. Any electronic device must be used in a hands-free manner, such as speaker or voice commands. The law applies when at a stop sign or signal.
-  To use a phone while driving, it must be mounted on the dashboard, windshield (seven-inch square in lower right corner or five-inch square in lower left corner), or center console.
-  When the phone is mounted, drivers can swipe or tap the screen once to activate or deactivate a feature. It is illegal to swipe multiple times, enter information or text.
-  A first offense ticket is \$162, with additional offenses costing even more.
-  You may use your phone while holding it for true emergencies, like calling 911.

For additional driver safety tips and resources, visit gosafelyca.org.

Be part of the solution by resisting the urge to talk or text while driving and "Go Safely, California."

Safety with Respect

**Distracted
Driving**

It's easy to feel like driving isn't enough when there's so much more to do. It's normal to feel the urge to grab the phone. But we must stay focused on the road. Not only is holding your phone while driving illegal in the State of California, distracted driving is now the number one cause of roadway crashes. Join us in being part of the solution. Grab the wheel with both hands, enjoy the drive and focus on each other. Here are some ways you can prevent driving distracted:

- > Silence your phone before you get behind the wheel and keep it mounted in a legally approved location.
- > Never text and drive or use apps or social media while driving.
- > Do not eat, drink or program your GPS/MP3 player or other devices while driving.
- > If a phone call is necessary or you need to reroute your map, pull over to use those devices.
- > If something falls to the floor, pull over to a safe parking spot before trying to reach it.

ANTI-BIKE THEFT TIPS

LOCK
PROTECT
REGISTER

sfsafe.org/safe-bikes

SAFE BIKES and the SFPD recommend the Sheldon Brown Locking Method.

No locking method is 100% foolproof, but this method is highly effective.

GUIDE FOR LOCKING YOUR BIKE:

- Use the smallest U-lock that works for your bike to minimize the amount of space available for a thief to insert a jack or levers.
- Use a hardened steel U-Lock to secure back wheel inside the rear triangle of the bicycle frame.
- Check to make sure U-lock is secured to an immovable metal object.
- Secure front wheel with cable or second U-lock. Loop cable around the down tube of the bicycle or secure second U-lock to front wheel and down tube.
- Replace quick release skewers and nutted wheels with keyed locking skewers and nuts to ensure wheels and saddles are locked to the bike frame at all times.
- Check with local bike shop for proper installation of locking skewers and advice.

SAFE BIKE REGISTRY

YOU JUST BOUGHT A NEW BICYCLE— NOW WHAT?

FOLLOW THESE STEPS:

- Register** and upload receipt and photos of your bicycle at sfsafe.org/safe-bikes.
- Buy a hardened steel U-lock and a secondary lock** such as a chain or cable (See locking tools list).
- Replace quick release skewers and nutted wheels with uniquely keyed locking skewers and nuts**, which keep wheels and saddles locked to the bike frame at all times.
- Lock** your bicycle in your garage the same way you would on the street.
- Take an urban bicycling workshop** with the San Francisco Bicycle Coalition to learn safe riding practices. Go to sfbike.org for more information.
- Speak with your local bicycle shop** for more help and advice.

TOOLS TO LOCK YOUR BICYCLE

There are many different types of locks for bicycles and many incorrect ways of using them. No locking method is 100% effective.

For best security use a hardened steel U-lock, chain and locking skewers.

- U-lock**
 - Very good deterrent
 - Use the smallest U-lock that works for your bike to minimize the amount of space available for thief to insert a jack or levers
- Chain**
 - Hardened alloy steel with thickness of at least $\frac{3}{8}$ " thick and heaviest is best
- Locking Skewers**
 - Very good deterrent
 - Replace all quick release parts
 - Check local bike shops for proper installation
- Cable**
 - Recommended for secondary locking device
 - Good security for movable parts

PREVENTING BICYCLE THEFT IN GARAGES

Garages and multi-unit apartment buildings with common garage are one of the most vulnerable places for bicycles. Thieves are waiting for the perfect opportunity.

Secure your bicycle in the garage the same way you would on the street!

- Secure to an immovable object or an anchor system.
- Never lock your bike near a window or door.
- Always watch your garage door and make sure it closes completely so unwanted visitors do not enter.
- Contact SAFE at 415-553-1984 or info@sfsafe.org for a residential security survey.

SAFE BIKE REGISTRY

**YOUR

NOW
WHAT?**

- File a police report through sf-police.org or visit your local police district station.
- Notify **SAFE BIKES** at info@sfsafe.org or call 415-553-1984.
- Provide pictures and serial numbers for bicycle with the police report and any identifying marks.
- If you don't have a serial number or pictures, track down your serial number from the point of purchase and/or use stock photos and send them to the investigator immediately.
- File an insurance claim.

INTERNET INVESTIGATIONS

- Post pictures of stolen bicycle to **Craigslist**, set up a **Google alert**, and use **IFTTT.com**.
- If bicycle is found, contact the SFPD investigator. **DO NOT** arrange a meeting and attempt to get your bicycle back.

Overview

Note: The following information is specific to commercial and retail establishments; however, can be applied to any location utilizing video surveillance.

Basic set up and maintenance problems can reduce the effectiveness of many systems.

- Resolution – is it good enough for facial recognition.
- Camera position – are they positioned for clear view of suspect.
- Lighting – is it adequate to capture clear images both day and night.
- Image detail – is the recorder set up for best image detail.
- Maintenance – are you maintaining your system properly so it can do its job when needed?

Set Up and Maintenance

- **Backlighting** – when sun is bright at doorway, images in front appear darker or even black. Use another light source inside to counteract back light.
- **Low Frame Rate** – saves on drive space and gives better image quality, but you may not get an image at all (now you see him; now you don't).
- **Obstructions** – displays and other objects blocking view **should be eliminated.**
- **Focus Problems** – must check system regularly to prevent.

Minimum camera resolution should be **480 horizontal lines.**

Good cameras have **faster lenses** (allows more lighting), larger maximum **aperture** opening (lets more light into the focal point of the camera) and controls image brightness (allows brighter images in dim lighting) – the more lighting, the more depth of field (greater depth of field; the more of the scene is in focus).

Focal Length – some cameras zoom in and out while others have a fixed focal length. The type of cameras used depends on what your needs are.

Transaction Areas – anything at a transaction point (cash register, toll booth, etc.), the subject's head should fill at least 15% of the total image in the frame, giving the detail you need.

Lines of Sight – lines of sight are always critical, make sure there are no obstructions.

Site Plan – the right site plan is crucial (retail store blueprint or **diagram**). Key camera spots are at transaction points (cash registers and entry/exit points) – the more cameras, the better.

You want good camera **overlap** (you want multiple chances to capture good images). Extra coverage is also needed for aisles, restrooms and other key points.

Camera Height – placement is very important, make sure it is as close to eye-level as possible. Otherwise, you might lose out to a baseball cap.

With a good site plan you can make sure you don't have any blind spots (you can toy around with camera positions, and do a test recording to see that you are getting what you want).

Interior Lighting – interior lighting can balance bright light from one direction (back lighting) by adding another light source from a different location (add a bank of lights).

Example: Artificial lighting (**inside store**) for cameras may be good in the morning, but by noon, the sun (through a doorway or window) can blow the entire frame out (add lighting to fill in for afternoon sunlight). Adding more light from a different direction balances lighting, giving better camera clarity (if sunlight is shining through large windows you can tent windows or add screens.

Exterior Lighting – if lights are on timers, you must adjust appropriate to seasonal changes (Fall/Winter: gets dark earlier. Spring/Summer: gets dark later).

PARK SMART CAMPAIGN

Park Smart!

THE KEYS TO
PARKED CAR
SAFETY ARE IN
YOUR HANDS!

If you love it, don't leave it.

**DON'T
TEMPT A
CAR THIEF!**

Car thieves only need seconds to break into your car. So Park Smart, and especially keep your trunk clear.

Take everything with you.

Park Smart!

Safe Habits to Adopt:

Turn off the ignition
Never leave your car running unattended

Keep your vehicle & tires in good condition
to prevent breakdowns—stranding you in a dark or unfamiliar place

Lock your doors
when you get in your car

See something, say something
If you see a motorist in distress, call 9-1-1 versus stopping to help

Clear your trunk
and take your valuables with you every time you leave your car

If you are being followed,
drive to the nearest police or fire station—a populated area is a good default

DON'T BE A VICTIM OF A BURGLARY!

Burglary Awareness & Prevention Tips for Construction Sites

Securing & Preventing

1. Secure all equipment and vehicles at all times.
2. Take effort to reduce the visibility of tools and equipment secured in vehicles or on job sites.
3. Make use of adequate lighting in conjunction with open chain-link fencing on the perimeter to allow for high visibility to the job site.
4. Strongly consider the use of security systems such as alarms and video surveillance. Ensure signage for such is clearly visible.

1899 Waller Street
San Francisco, CA 94117
(415) 242-5000

Precautionary Measures

1. Photograph all tools. Ensure photographs clearly show the associated serial number and/or distinctive markings.
2. Ensure job site keys are marked "Do Not Duplicate" and are controlled at all times.
3. Attempt to park employee vehicles within visual range of the job site.

Should a Burglary Occur

Immediately contact 911. Be prepared to provide the following information:

- a) Time of incident.
- b) Video (if available).
- c) Items taken (include make, model, description, location taken from, value, photos and serial numbers).
- d) Insurance information.
- e) Owner's information.

Whether you live in a single family home, condo, or a large apartment complex in San Francisco, there are a number of ways you can keep your residence safe and secure. Working together as a community with your neighbors and building management can significantly improve your residential safety.

7 Residential Safety Tips

- 1 **Garage:** When entering or leaving the garage, watch to ensure door shuts completely. Lock stored bikes to a sturdy rack.
- 2 **Car:** Always lock your vehicle when parked in your garage and remove all valuables. Never leave garage door opener in your vehicle when parked outside your home.
- 3 **Spare Key:** Never hide spare keys. If you need to have a spare key available, leave it with a trusted neighbor.

- 4 **Door Buzzer:** When a visitor rings your bell, confirm who it is by intercom before you grant them access. Similarly, never let strangers follow you through the front door.
- 5 **Security Cameras & Alarm Systems:** Cost effective tools for preventing crime and identifying criminals.
- 6 **Light Timers:** Installing timers on the exterior of your residence is an effective and energy efficient way to deter criminal activity.
- 7 **Doors/Windows:** Always keep doors and windows locked.

Door and Window Safety

Doors:

- Should be made of solid wood or metal
- Have a single cylinder deadbolt lock and a 1-inch bolt
- Have a front door viewer or peep hole with a 180-degree range
- Clearly display unit number

Windows:

- Replace if glass is cracked and replace all damaged or missing locks
- Ground level windows should be burglary resistant: consider purchasing windows with reinforcement wire, laminate, or tempered glass
- Polycarbonate plastic or metal grates can be installed over existing ground level windows
- Windows above ground level are not considered secure: if used for ventilation, lock in position and keep open no more than 3 inches

Keep property in good repair. Maintain visibility to your neighbors for increased safety.

PARK STATION'S VISION & VALUES**Captain Una Bailey**

I absolutely love police work and I love all that we as SFPD can do to help victims, solve and prevent crimes, and I am a firm believer in the power of the community. We, as a department, are only as successful as our partnerships with the community. I learned very early in my career how important community involvement is both in solving and preventing crimes and also in the creation of safe desirable neighborhoods. I look forward to building and maintaining community involvement and relationships over the coming years. I know that when we work together, we will create a district that will be safe and sound for all.

WHO AND WHEN TO CALL?

3-1-1: Please contact 3-1-1 when the issue is a not an emergency, yet requires City services or, if you simply have questions regarding City services. Non-emergency situations include the following examples: damage to public property, public trees that requires pruning, defective streets or sidewalks, homeless-related issues. 3-1-1 was developed to help the community inform the appropriate City agency regarding a service request.

SF 3-1-1 APP is available to use on your mobile device. Download the APP and its easy to use for many Non-emergency.

Non- Emergency San Francisco Dispatch Line: Please call the non- emergency dispatch line (**415-553-0123**) when the scenario does not need immediate response from the San Francisco Police Department. For example, if there is a loud party, a group of loud juveniles loitering in front of your residence, noise complaints, doubled parked vehicles, suspicious activities, or a homeless/nuisance related issue. **The non-emergency line is for situations that require the police, but do not require an immediate police response.**

9-1-1, please call 9-1-1 immediately if there is a police, fire, medical, or any other emergency. The purpose of San Francisco's 9-1-1 Emergency Telephone System is to provide the community an immediate response of police, fire, or medical personnel for emergency occurrences. To accomplish this, it is imperative that the calls received on the 9-1-1 line be restricted to those situations that require immediate dispatching of police, paramedic, or fire department personnel. For example, crimes or fires that are in-progress, or medical emergencies.

The San Francisco Police Department district station telephone numbers and emails are not monitored. Questions will be answered in the order we receive them. Station emails are not for making police reports nor for reporting a crime. If you need to make a police report, you can call 415-553-0123 or go to your district police station. **If you have an emergency, please call 9-1-1.**
