EARLY INTERVENTION SYSTEM 3rd Quarter 2022

San Francisco Police Department

1245 3rd Street San Francisco, Ca 94158 www.sanfranciscopolice.org

SAN FRANCISCO POLICE DEPARTMENT

The San Francisco Police Department's Early Intervention System (EIS) is a structured system that identifies patterns of potential at-risk behaviors of individual SFPD members. An EIS alert is generated when a member reaches a specific number of Performance Indicator Points in a predefined time period. The alert generated by the EIS Unit should not be misconstrued as misconduct, but rather an indication of a potential pattern of behavior. The intent of the system is to provide **non-disciplinary intervention** to assist our members in their professional development in order to provide the highest level of service and satisfaction to the public. (Outlined in DGO 3.19.)

It is the policy of the Department to provide for the protection and confidentiality of the EIS records maintained by the Department that are peace officer personnel records under 832.7 PC.

This report is produced on a quarterly basis by the EIS Unit and presented to the Police Commission by the Assistant to the Chief of Staff. The report contains data regarding current EIS alerts and historical data for comparison.

While an officer's Use of Force (UOF) is one of several performance Indicator Points utilized by EIS, the EIS Quarterly Report is not a review of UOF, nor does it purport to be. UOF is reviewed in the 96A report, which is reported separately to the Police Commission. The data contained in the report has not undergone statistical analysis and is presented prima facie, without conclusions. However, any follow up made by supervisors or through intervention is meant to ensure members comply with department policy and is intended to break a pattern of behavior. Additional data (e.g., number of calls for service, district demographics, etc.) is presented to provide context for the report, and no correlations between the data and the EIS alert are explicitly made or should be inferred.

EIS Alert

An <u>EIS Alert</u> is generated when a member reaches a specific number of Performance Indicator Points in a predefined time period. The Administrative Investigations Management (AIM) application generates alerts each month. After the alerts are reviewed by analysts for errors and duplicate incidents, the validated alerts are then forwarded to the EIS Sergeant every other month for review.

Review Process by EIS Unit

| Step | Process |
|--------|--|
| Step 1 | Alerts are generated every month and then sent out to stations and units every two months. At the end of each two-month period, alerts are verified by analysts and then forwarded to the EIS Sergeant for review. If an officer has alerts for both months in this period, the most recent alert is forwarded to the EIS Sergeant. |
| Step 2 | The EIS Sergeant reviews each alert to determine if it should be closed administratively. The EIS Sergeant will review incident reports, Use of Force evaluations and Body-Worn Camera (BWC) footage for Use of Force Indicator Points. The EIS Sergeant also reviews documentation related to other indicator points (e.g. DPA complaints, Tort Claims). The EIS Sergeant examines the alert for patterns of at-risk behavior. (Examples of at-risk behavior include, but are not limited to: excessive force without attempts of de-escalation; unprofessional language; racial profiling, etc.) The EIS Sergeant may move to close the alert administratively if the following criteria exists: a recent EIS Alert evaluation has been already completed, there was no pattern of at-risk behavior observed, and there were minimal Indicator Points since the last EIS Alert evaluation. |
| Step 3 | If the EIS Sergeant supports closing an alert administratively, it will be forwarded to the Officer- in-Charge (OIC) of the Legal Division. The OIC of the Legal Division will make the final determination for administratively closing an alert. |
| Step 4 | If there is no cause to administratively close an alert, the alert, along with documentation related to the indicator points (e.g. DPA complaints, tort claims, civil suits, etc.) will be sent to the officer's supervisor for review. The officer's supervisor will conduct a Performance Review to determine if the alert indicates at-risk behavior. |
| Step 5 | The completed Performance Review is forwarded to the EIS Unit for review. If the Performance Review determined that the alert did not show a pattern of at-risk behavior, and the EIS Sergeant concurs, the alert is forwarded to the OIC of the Legal Division for final determination to close the alert. If the Performance Review determined a pattern of at-risk behavior <i>did</i> exist, the EIS Sergeant would assist the supervisor in determining the next course of action. In the event the EIS Sergeant does not agree with the supervisor's conclusion, the EIS Sergeant would confer with the OIC of the Legal Division for additional review and action. |
| Step 6 | If an intervention is deemed necessary, the EIS Sergeant will assist the officer's supervisor with creating an intervention plan for the officer. After the intervention is initiated, the EIS Sergeant will follow up with the supervisor at 90 days, 180 days and the 1-year mark. |
| Step 7 | At the 1-year mark, the officer's supervisor will conduct a final Performance Review and decide if the officer completed the intervention satisfactorily. If so, the alert will be sent to the OIC of the Legal Division to determine if the alert will be closed. If the officer's supervisor determines the officer's performance was less than satisfactory in their intervention, the EIS Unit would confer with the supervisor to develop another intervention plan until the officer completes the intervention satisfactorily. |

Indicator Points

<u>Indicator Points</u>¹ are factors tracked in EIS that are given a numerical value to allow for scoring. Each Indicator Point is one point.

| Abbrev | Indicator | Description |
|--------|--|---|
| UOF | Use of Force | Any application of a reportable Use of Force is counted as one Indicator Point. Applications of different types of force by the same officer during the same incident will only have a single Indicator Point assigned. |
| DPA | Department of Police Accountability | The mission of the Department of Police Accountability is to investigate complaints promptly, fairly and impartially against San Francisco police officers. An individual complaint received by DPA is assigned as one Indicator Point. |
| CS | Civil Lawsuit | If a member is named in a civil lawsuit filed against the City & County of San Francisco, one Indicator Point is assigned. |
| OIS | Officer-Involved Shooting | An officer's intentional discharge of a firearm to stop a threat — whether or not physical injury or death results — shall be investigated as an Officer-involved Shooting. A negligent discharge that results in the injury or the death of a person shall also be investigated as an officer-involved Shooting. Members involved in an OIS are automatically placed on an EIS Alert. |
| OID | Officer-Involved Discharge | The discharge of a firearm intended to kill an animal posing an imminent threat or an officer's unintended discharge of a firearm that does not cause injury or death to a person also falls into the classification of officer-involved discharge. Members involved in an OID are automatically placed on an EIS Alert. |
| ODC | On Duty Collision | If a member is involved in a vehicle collision on duty while operating a department vehicle or operating a privately owned vehicle that has been authorized for official use, the incident will be assigned one Indicator Point. |
| EEO | Equal Employment Opportunity | Any complaints or violations of department policy under General Order 11.07 (Discrimination and Harassment) are investigated by the EEO Unit. Each complaint received is assigned one Indicator Point. |
| IAD | Internal Affairs Division | If an officer is a named member in an IAD investigation, the event is assigned one Indicator Point. |
| тс | Tort Claim | A tort claim is a case filed with the City & County of San Francisco claiming a wrongful act by a city employee which resulted in an injury to another person or person's property. If a member is named in a tort claim, the incident is assigned one Indicator Point. |
| VP | Vehicle Pursuit | If an officer is the operator of a vehicle involved in a vehicle pursuit, one Indicator Point is assigned. |

¹ If a member is involved in an incident where multiple points could be accrued, only one-point value will be counted. Numerical points begin from the date of the most recent indicator entry; time is calculated on a rolling basis.

*Alerts are generated every month and sent to out to stations during the following months: February, April, June, August, October, December. Only the most recent alert is sent to the officer's unit. Please note that the EIS Unit records all generated alerts for data-tracking purposes. *(e.g. Officer Smith generated an alert in January and February. February's alert would be sent to the officer's Captain or Sergeant, but February's alert would still include all the Indicator Points that triggered January's alert.)*

Criteria of Administrative Closures:

*Administrative Closures are recommended by the EIS Sergeant and approved by the OIC of the Legal Division.

1. A member received a recent EIS Alert Evaluation

(e.g. Nearly all the indicator points that triggered a member's alert have been evaluated by a supervisor in a recent alert.)

2. No pattern observed

(e.g. A review of the indicator points of a member's alert show no pattern of at-risk behavior.)

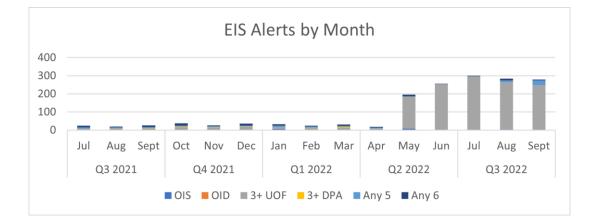

3. Minimal Indicator Points since last evaluation

(e.g. A member generated one Use of Force indicator point of "Pointing of a Firearm" or one Tort Claim since their last EIS alert, and the new indicator points do not show a pattern of at-risk behavior.)

Interventions

Interventions are initiated after a member's supervisor and the EIS Unit agree that action needs to be taken with a member to prevent further at-risk behavior that may lead to negative outcomes.

Engagements Outside EIS

| 3 rd Quarter 2022 | |
|-------------------------------|-------|
| | Total |
| Informal Counseling | 95 |
| Formal Counseling | 9 |
| Performance Improvement Plans | 1 |

Supervisors routinely provide officers with counseling to educate and foster open lines of communications. Informal counseling can consist of constructive critiques provided to officers by their supervisors in an informal setting that may occur throughout an officer's tour of duty. Formal counseling is a process in which a supervisor meets with a member in a non-punitive setting to discuss the member's performance and the supervisor documents the counseling session in some form (e.g. memo). A Performance Improvement Plan (PIP) is a formal, written plan handled at the station-level, specifically tailored for a member that clearly defines the supervisor's expectations and strategies to assist the member.

Formal tracking of *Engagements* Outside EIS was not uniformly reported or documented until the beginning of 2019. Commanding Officers are required to submit a monthly report to the EIS Unit documenting the number of officers formally and informally counseled, as well as how many were placed on a Performance Improvement Plan during the month. Department General Order 1.04 states "Sergeants shall train and lead subordinates in the performance of their duties and set an example of *efficiency and deportment."* The increased number of formal and informal counseling is an indication of sergeants being proactive in their duties as a supervisor.

SAN FRANCISCO POLICE DEPARTMENT Response to Request for Information

STATUS OF EARLY INTERVENTION SYSTEM (EIS) BENCHMARK PROJECT

At the meeting on **October 5, 2022,** the Police Commission requested the status of implementation of the updated Early Intervention System (EIS) data collection project. Benchmark Analytics is the vendor working with staff in the Risk Management Office/Early Intervention System Unit on this project.

The project began in October 2021 with a planned "go-live" in Quarter 2 of 2023. The project is on schedule with the timeline contingent on the update to Department General Order 3.19, which is currently in progress.

In addition, technical issues may arise resulting from gathering of data from numerous different internal databases and the needed transfer to Benchmark systems. SFPD Information Technology staff continues to work with the Benchmark data scientists to troubleshoot and resolve these issues.

Below is the project update provided by internal staff and Benchmark Analytics. An update is scheduled to be presented to the EIS Panel scheduled on October 27, 2022, and an update also will be included in the next quarterly EIS report to Commission when it is scheduled.
