Request for Qualifications Process (RFQ)

Presented by: M. Catherine McGuire, Chief Financial Officer & Sergeant Nicole Jones

A procurement method to identify and engage consultants in the provision of analytical and other services.

Finding 1 Finding Manager: A/Capt. William Braconi

The majority of deadly use of force incidents by SFPD involved persons of color.

Recommendation 1.1

Project Manager: Sgt. Nicole Jones

SFPD must commit to reviewing and understanding the reasons for the disparate use of deadly force. Specifically, SFPD needs to:

- Partner with a research institution to evaluate the circumstances that give rise to deadly force, particularly those involving persons of color.
- Develop and enhance relationships in those communities most impacted by deadly officer involved shootings and monitor trends in calls for service and community complaints to ensure appropriate police interaction occurs as a matter of routine police engagement.
- Provide ongoing training for officers throughout the Department on how to assess and engage in encounters involving conflict with a potential for use of force with a goal of minimizing the level of force needed to successfully and safely resolve such incidents.

Finding 20 Finding Manager: Capt. Greg Mar

The SFPD does not capture sufficient data on arrest and use of force incidents to support strong scientific analysis. Because of limitations in the manner in which use of force and arrest data were collected by the SFPD, assessment team members were unable to perform a multivariate frequency analysis, which would have shed light on whether individuals who are members of racial minorities were subjected to force more often than White individuals during arrests.

Recommendation 20.4

Project Manager: Sgt. Stacy Youngblood

The SFPD should identify a research partner to further refine its use of force data collection and to explore the data findings of this report to identify appropriate data for measurement and to determine causal factors.
